# **₽** Profile

Senior Full Stack Developer with 7+ years of experience building high-performance, user-focused web applications and scalable backend services. Expert in modern JavaScript frameworks (Vue, React, Angular, Svelte) and backend technologies (Node.js, GraphQL, PHP, Laravel) with a proven record of delivering complex projects on time and within scope. Skilled at optimizing performance, implementing responsive UI/UX, and integrating APIs for real-time, data-driven applications. Adept at collaborating with cross-functional teams to turn requirements into production-ready software.

# **➡** Professional Experience

# Full-Stack Developer, Aeris Solutions

- Led the development of three interactive kiosk applications and a reusable. framework-agnostic library for canvas rendering, designed to integrate seamlessly across multiple product platforms.
- Built data-intensive kiosk applications that consume weather and AI APls using Electron and JavaScript, delivering responsive. highperformance Uls.
- Engineered scalable back-end services with Nodejs. Strapi. and GrathL, emphasizing clean, efficient. and maintainable code.
- Developed a robust canvas rendering library using Svelte. TypeScript, HTML. and CSS. overcoming complex rendering challenges and enhancing visual performance.
- Collaborated on a team project to implement advanced animations in a React-based web application, improving user experience and engagement.

### Front-End Developer, WeAreImpress

- Contributed to the development of four web projects using Vue.js and Nuxt.js, focusing on building dynamic, visually engaging user interfaces.
- Tackled the challenge of implementing complex, custom animations to support flexible and interactive data visualizations.

05/2023 – 03/2025 Canberra, Australia

10/2020 – 01/2023 Sydney, Australia • Successfully delivered all design-specified animations by collaborating closely with team members and applying creative problem-solving to overcome technical limitations.

## Front-End Developer, GrooveKart

- Played a key role in developing a high-traffic e-commerce web application using Vue.js, HTML, CSS, and Tailwind CSS, with a strong focus on responsive design, product discovery, and conversion optimization.
- Built core features including the product catalog, shopping cart, checkout flow, and user account management, ensuring smooth functionality and consistent performance across desktop and mobile devices.
- Implemented a secure and user-friendly payment integration supporting multiple gateways, optimizing the transaction process to reduce cart abandonment and increase sales.
- Developed mobile-responsive promotional landing pages and seasonal campaign pages aligned with modern UI/UX standards to maximize customer engagement and drive conversions.
- Collaborated cross-functionally with design, marketing, and back-end engineering teams to deliver cohesive, production-ready releases on time, aligned with business goals and promotional timelines.

# Education

Bachelor's Degree in Computer Science, Dong Nai Technology University

09/2016 - 05/2019 Dong Nai, Vietnam

# Skills

### **Frontend**

JavaScript (ES6+), TypeScript, Vue.js, React, Angular, Svelte, Nuxt.js, Quasar, Electron, HTML5, CSS3, Bootstrap, Tailwind CSS, SCSS/SASS

#### Backend

Node.js, GraphQL, Strapi, PHP, Laravel, Python, Golang

#### **Databases**

MySQL, PostgreSQL, MongoDB, SQL/NoSQL

### Other

REST API Development, WebSockets, Animation Libraries, Performance Optimization, Responsive Design, WordPress

### Tools & Platforms

Git, Jira, Figma, VS Code

09/2019 – 10/2020 Florida, US
